Teachers' Superannuation Fund

Annual Report 2009-2010

To Her Honour,
the Honourable
Barbara Hagerman

May it please your Honour:

In accordance with section 3 of the *Teachers' Superannuation Act*, I am pleased to present to you the Annual Report of the Prince Edward Island Teachers' Superannuation Commission for the plan year ended June 30, 2010.

Respectfully submitted
Your Obedient Servant,

Son Honneur,
L'honorable
Barbara Hagerman

Madame la lieutenante-gouverneure,

Conformément à l'article 3 de la Teachers' Superannuation Act, j'ai l'honneur de vous présenter ce rapport annuel pour l'exercice terminé le 30 juin 2010.

Je vous prie d'agréer, Madame la lieutenante-gouverneure, l'expression de ma haute considération.

Doug Currie

Doug W. Currie,
Minister of Education and Early Childhood Development
Ministre de l'Éducation et
du Développement de la petite enfance

Table of Contents

Introduction

The Teachers' Superannuation Fund (TSF) was established in 1931 and provides retirement income to members and the dependants of deceased members, in accordance with the *Teachers' Superannuation Act* (TSA).

Plan Description

The TSF is a contributory, defined benefit pension plan financed by contributions from employees and employers, and by investment earnings from the Master Trust Investment Fund.

Contributions – In 2009-2010, members of the plan contributed the following:

- 7.30 percent of pensionable earnings up to the Yearly Maximum Pensionable Earnings (YMPE), and

- 9.00 percent of pensionable earnings in excess of the YMPE.

The YMPE was $46,300 for 2009 and $47,200 for 2010.

The employer matches contributions made by the members on a bi-weekly basis.

Membership – A teacher, as designated under the *School Act*, is eligible for membership. Substitute teachers are not eligible for membership.

Unreduced Retirement – An unreduced monthly pension is payable for life to a member who meets one of the criteria below:

- has attained the age of 60 with two or more years of pensionable service;
- has attained the age of 55 with 30 or more years of pensionable service;
- has 35 or more years of pensionable service; or
- is deemed totally and permanently disabled and has two or more years of pensionable service.

The benefit is calculated as 2.0 percent multiplied by the years of pensionable service, multiplied by the average of the five highest years of pensionable earnings. Please note that for salary below the Canada Pension Plan's YMPE, the 2.0 percent benefit is comprised of:

a) a 1.3 percent life-time benefit, and

b) a 0.7 percent bridge benefit payable from the date of retirement to age 65.

Early Retirement – Eligible members can opt for an early retirement pension benefit as early as age 55. In these cases, the pension amount is reduced by the lesser of:

a) 3.0 percent for each year prior to age 60, or
b) 3.0 percent for each year prior to attaining 30 years of pensionable service.

It should be noted that the early retirement reduction is applied to both the life-time and the bridge benefits, and remains in effect for their entire duration.

Benefits on Termination - A member in the TSF becomes vested after two years of pensionable service in the plan.

a) Vested members are eligible for either a deferred pension or a refund of employee contributions plus interest.
b) Non-vested members are eligible for a refund of employee contributions plus interest.

Inflation Protection – Pensions are increased by 60 percent of the change in the Consumer Price (all items) Index for Canada, to a maximum of 4.0 percent, on the first day of July of each year. The pension payment received upon retirement and the value of a deferred pension benefit are both indexed annually under the TSF. Indexation applied at July 1, 2009 was 1.4 percent.

Death Benefits – The TSF provides for both spousal and dependant benefits to eligible survivors of vested members.

Fund Administration

Administration of the TSA is assigned to the Pensions and Benefits Section of the Department of Finance and Municipal Affairs. The Office of the Comptroller within the Department of Finance and Municipal Affairs provides investment management support for the Province of Prince Edward Island Master Trust.

The TSF's assets are managed independently by professional fund managers. The fund managers responsible for the TSF's investments as at June 30, 2010 were:

1) Baillie Gifford Overseas Limited;

2) Beutel Goodman Investment Counsel;

3) Burgundy Asset Management Limited;

4) Franklin Templeton Investments;

5) Lazard Asset Management (Canada);

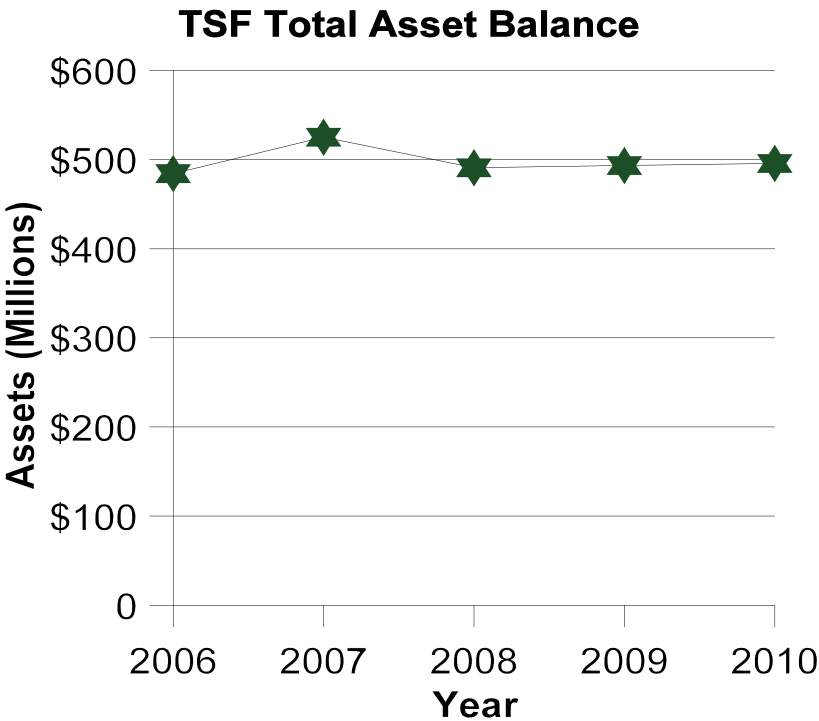
6) McLean Budden Limited; and

7) State Street Global Advisors.

The total asset balance of the TSF at June 30, 2010 was approximately $496 million, up from $493 million at June 30, 2009.

Diagram 1 shows the TSF total asset balance from 2006 - 2010.

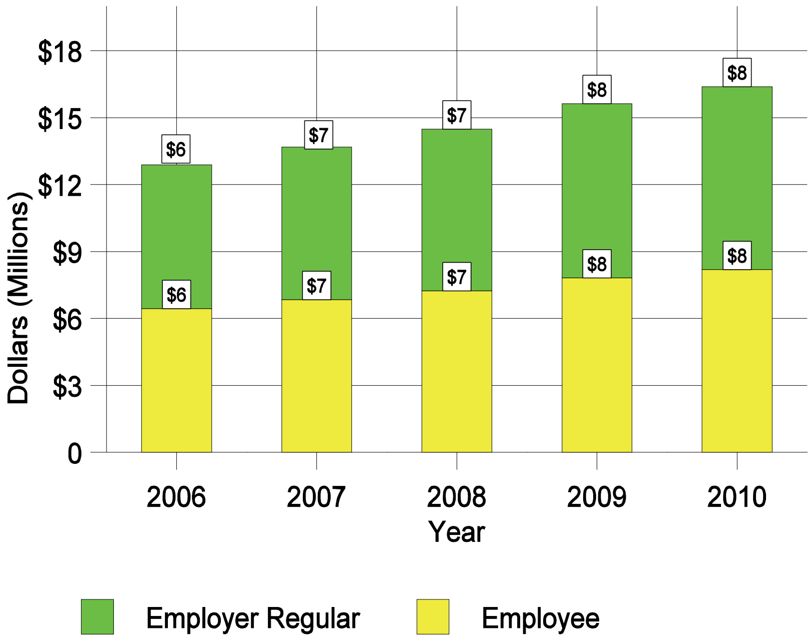
Diagram 1



Regular Contributions – Regular contributions are made to the TSF via payroll deductions. In 2009-2010, the regular contributions from both the employer and employees combined were approximately $16.4 million, up from $15.6 million in 2008-2009. Other contributions include special payments from the Province, payments for prior service, and transfers in from other plans via reciprocal agreements.

Diagram 2 depicts, by year, the regular employer and employee contributions made to the TSF.

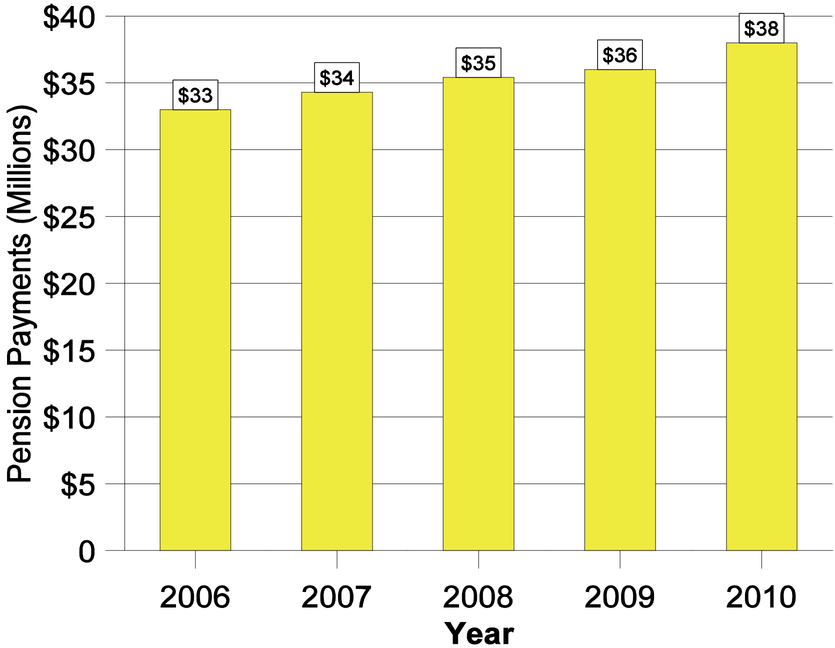
Diagram 2
Regular Contributions



Special Contribution - To reduce the unfunded liability of the TSF, the Province of Prince Edward Island agreed to invest $160 million in the Fund. The investment was in the form of a promissory note from the Province of Prince Edward Island to the Fund. This note is receivable in ten equal annual installments of $16 million beginning April 15, 2005, plus interest at the rate of 4.345 percent per annum. Interest is to be paid semi-annually on April 15 and October 15.

Pension Payments – Annual pension payments in 2009-2010 were approximately $38 million. This is shown in **Diagram 3**. In the fiscal year 2009-2010, approximately 97 percent of the pension payroll was paid to members and the remaining 3 percent was paid out as spousal and dependant benefits.

Diagram 3
Pension Payments



Pensioners – The number of persons receiving pension was 1,403 at June 30, 2010. **Table 1** outlines the number of new pensioners, their average age and average annual pension for the three most recent fiscal years ending June 30.

Table 1
Number of New Pensioners with Average Age and Average Annual Pension

Fiscal Year	No. of New Pensioners	Average Age	Average Annual Pension
2009-2010	48	57.58	$ 37,315
2008-2009	26	56.94	$ 32,267
2007-2008	41	57.06	$ 35,575

Table 2 outlines the categories with the average annual pension for each category at June 30, 2010.

Table 2
Pension Categories and Average Annual Pension

Category	Number of Pensions		Average Annual Pension	
	2010	**2009**	**2010**	**2009**
Members	1,252	1,218	$ 28,232	$ 27,680
Disability Pensions	46	48	$ 18,638	$ 18,225
Spousal	94	94	$ 13,384	$ 13,981
Dependants	11	12	$ 2,174	$ 2,120
Total Pensions	1,403	1,372		

Actuarial Requirement – Federal legislation requires that an actuarial valuation be performed once every three years to evaluate the funding status of the TSF. Actuarial valuation reports require best estimate assumptions about future events to determine the liabilities of the Fund as of the valuation date. The actual assets of the Fund, as of the valuation date, are then compared to the liabilities to determine the plan's funding status.

The most recent actuarial valuation was completed as of July 1, 2008. This valuation was based on the following membership data:

1) 1,781 Active Members
   Average salary of $61,598
   Average age of 41.8 years
2) 1,348 Pensioners
   Average annual pension of $26,198
   Average age of 68.5 years
3) 65 Deferred Pensioners
   Average annual pension of $11,128
4) 352 Inactives
   Estimated average contributions with interest of $3,661

The value of the Plan assets as at July 1, 2008 was $490,419,000, which represents 79.0 percent of the actuarial liability of $620,909,000.

Table 3 details the actuarial valuation statement of financial position as at July 1, 2008.

Table 3

Going-Concern Financial Position

Total	**$ 620,909,000**	
Actuarial Surplus (unfunded liability)	$(130,490,000)	
Funding Ratio	79.0%	

Highlights for 2009-2010

Act/Regulations

During the fiscal year 2009-2010 the following amendment to the Act was adopted.

Definition of spouse amended
The TSA updated its definition of spouse to recognize common-law relationships (same or opposite sex) when determining the spousal benefit entitlement related to a deceased member. In practice, a legally married spouse takes precedence; however, in the absence of a legal spouse, the common-law partner may now be entitled to spousal benefits under the TSA.

Administration Initiatives

Work is nearing completion on compiling, verifying and loading data into the pension administration system, Ariel. Annual pension statements at June 30, 2009 were released in June 2010. Work will continue to ensure that statements are released in as timely a fashion as possible, with the goal being to release the statements within 9 months of the fiscal year end of June 30th each year. Member statements at June 30, 2010 are targeted for release in late Winter 2011.

Investment Management

The largest contributor to the growth of TSF assets is normally investment income. These investments are held in the Province of Prince Edward Island Master Trust. The TSF, MLA Pension Fund and Civil Service Superannuation Fund participate in the Master Trust. In 2009-2010, approximately 34 percent of the funds in the Master Trust were assets of the TSF.

As of June 30, 2010, the rate of return of the Master Trust was as follows:

- Annual rate of return: 6.10%
- Ten year rate of return: 3.70%

TSF Assets

During 2009-2010, there was a net increase to TSF assets of approximately $2 million.

Table 4 shows the receipts and income, by source, which totalled approximately $41 million.

Table 4
Receipts and Income

Type	Amount
Employer Contributions	$ 8,194,615

Teachers' Superannuation Commission

The TSA is administered by the Teachers' Superannuation Commission. The seven-member Commission consists of the following representatives at June 30, 2010:

No of Members	Member	
1	*Chairperson* - Deputy Minister of Education & Early Childhood Development	Dr. Alexander (Sandy) MacDonald
2	Department of Education & Early Childhood Development	Gordon MacFadyen John Cummings
3	PEI Teachers' Federation	Michel Plamondon Blaine Bernard Denise Gaudet-McPhail
1	Department of Finance and Municipal Affairs	Scott Stevens

Master Trust Investment Advisory Committee

The Master Trust Investment Advisory Committee provides advice to the Minister of Finance and Municipal Affairs on the following items:

- protection of the principal assets of the Master Trust;
- monitoring of costs;
- recommendations on investment fund asset mix;
- review of investment fund and fund manager performance standards; and
- compliance with both federal and provincial requirements relating to ownership of foreign equities.

At June 30, 2010, the committee is comprised of the following representatives:

Chairperson - Deputy Minister of Finance and Municipal Affairs	Doug Clow
Canadian Union of Public Employees	Gordon Muncey
International Union of Operating Engineers	Bill Bylhouwer
Member of the Legislative Assembly	Francis (Buck) Watts
PEI Nurses' Union	Susan Marchbank
PEI Teachers' Federation	Michel Plamondon
Provincial Government	Terry Hogan John Cummings Scott Stevens
Union of Public Sector Employees	Shelley Ward Donalda Docherty
Ex Officio Outside Designates - Fiscal Agents	Tim Van Alstyne, *RBC Dominion Securities Inc.* Bill Hastie, *Scotia Capital Inc.*
Ex Officio Outside Designates - Consultants	Paul Malizia and Tony Politano, *Hewitt Associates Investment Council*

Audit Requirements

In accordance with section 31 of the *Teachers' Superannuation Act*, the financial statements have been examined by the Office of the Auditor General whose report is included in the appendix of this annual report.

FINANCIAL STATEMENTS

JUNE 30, 2010

AUDITOR GENERAL

CHARLOTTETOWN
PRINCE EDWARD ISLAND

AUDITOR'S REPORT

To the Commissioners of the
Teachers' Superannuation Fund
Province of Prince Edward Island

I have audited the Statement of Net Assets Available for Benefits of the **Province of Prince Edward Island Teachers' Superannuation Fund** as at June 30, 2010, and the Statement of Changes in Net Assets Available for Benefits for the year then ended. These financial statements are the responsibility of the Teachers' Superannuation Commission. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with Canadian generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the Fund as at June 30, 2010, and the results of its operations for the year then ended in accordance with Canadian generally accepted accounting principles.

Colin Younker, CA
Auditor General

(The accompanying notes are an integral part of these financial statements.)

1. Plan Description

The following description of the Province of Prince Edward Island Teachers' Superannuation Pension Plan (the "Plan") is a summary only. For more complete information, reference should be made to the *Teachers' Superannuation Act* and *Regulations*.

a) General

The Plan is a contributory defined benefit plan covering members as defined in the *Teachers' Superannuation Act*.

b) Contributions

Under the Plan, employees and the employer contribute equally at a rate of 7.3 percent of that part of the members' salary up to the amount of the year's maximum pensionable earnings (YMPE) as defined in the *Canada Pension Plan Act* and 9.0 percent on the amount that exceeds the YMPE. For those employees whose employment is excluded from the *Canada Pension Plan Act* and is not subject to that Act, they contribute 9.0 percent of their salary.

c) Retirement Benefits

A member who has attained the age of 60 and has completed at least 2 years of pensionable service or has attained the age of 55 and has completed 30 years of pensionable service or has completed 35 years of pensionable service is entitled to an unreduced pension which is payable in equal monthly installments.

The annual amount of the pension is equal to 2 percent of the average of the five highest years pensionable salary multiplied by the number of years of pensionable service. When the member reaches the age of 65 (or if he or she is 65 or over at retirement) the amount of pension described above is integrated with the Canada Pension Plan. The pension is reduced by 0.7 percent of the average salary up to the average YMPE during the five year period over which the average salary has been computed, multiplied by the number of years of the member's pensionable service after July 1, 1972.

Reduced benefits are available at age 55 with at least 2 years of pensionable service. The pension for a member who retires prior to age 60 (and who is not entitled to an unreduced pension) is calculated as described in the previous paragraph but then is reduced by 0.25 percent for each full month by which the early retirement date precedes the member's earliest unreduced retirement age.

1. Plan Description (continued...)

c) Retirement Benefits (continued...)

The above formula determines the amount of a member's initial pension at retirement. In subsequent years, the amount of a member's pension is increased by 60 percent of the percentage increase in the Consumer Price Index. The increase in any one year is limited to no more than 4 percent.

d) Disability Benefits

Disability benefits are available at any age to a member who retires from teaching service because of total and permanent disability provided the member contributed to the Fund for 2 or more years.

e) Death Benefits

On the death of a member prior to completing 2 years of pensionable service, or after completing 2 years of service but leaving no surviving spouse or dependant children, the member's accumulated contributions with interest will be refunded. If a member dies prior to retirement but after completing 2 years of service, the member's spouse is entitled to an immediate pension equal to 60 percent of the accrued, unreduced pension of the member at the time of death. In addition to the spousal pension, an allowance equal to one quarter of the remaining 40 percent of pension is payable in respect of each dependent child, until the child attains the age of 16 or until the age of 25 if the child is attending school full-time. In no case shall payment to such children exceed 75 percent of the remaining 40 percent of pension.

f) Termination and Portability of Benefits

In the event of termination of employment for reasons other than retirement or death, a member may elect to receive either:

- a refund of the member's own contributions with interest; or
- if the member has completed at least two years of service, a deferred pension commencing when the member attains the age of 60.

Where there are portability arrangements between the Plan and other plans, members may be able to carry certain pension benefits to those other plans or transfer contributions and service from those other plans to increase pension benefits under the Plan.

g) Income Tax

The Fund is a Registered Pension Plan as defined under the *Income Tax Act* and is not subject to taxation.

2. Summary of Significant Accounting Policies

These financial statements are prepared on a going concern basis and in accordance with Canadian generally accepted accounting principals and presents the aggregate financial position of the Fund as a separate financial reporting entity independent of the Province of Prince Edward Island and the Plan members. They are prepared to assist plan members and others in reviewing the activities of the Fund for the fiscal period but they do not portray the funding requirements of the Plan or the benefit security of individual members. The following accounting policies are considered significant.

a) Foreign Currency Translation

Transactions denominated in foreign currencies are translated into Canadian dollars at the rates of exchange prevailing on the transaction dates. The fair values of foreign investments and cash held at year-end are translated at the rates in effect at that date. The resulting gain or loss from changes in these rates is included in the current period change in fair value of investments.

b) Investments

(i) Investments are represented by units of participation in a master trust. A master trust is a pool of assets into which contributions from pension plans are deposited for investing. The pro-rated share of each of the assets, liabilities, revenues and expenses of the Province of Prince Edward Island Master Trust (the "Master Trust") are allocated by units of participation.

(ii) Investments are valued at fair value, which is based on quoted or estimated market values.

Changes in the market value of investments, including realized and unrealized gains resulting from changes in foreign exchange, are reflected in the financial statements as a change in the fair value of investments.

(iii) The derivative contracts held by the Fund are stated at fair value and are valued using quoted market indices. Realized and unrealized gains or losses from derivative contacts are included in the change in fair value of investments.

(iv) Investment transactions are recognized on the transaction date. Distributions are recognized on the record date.

(v) Investments include receivables and payables at June 30, 2010, for interest, dividends and settled derivative contracts.

2. Summary of Significant Accounting Policies (continued...)

c) Revenues and Expenses

Revenues and expenses are recorded on an accrual basis in the period in which the transactions or events that gave rise to the revenue or expense occurred.

d) Use of Estimates

The preparation of financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates. Assumptions can affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the year. Actual results could differ from these estimates and the differences may be material.

e) Financial Instruments

The Fund's financial instruments include cash, contributions and other receivables, investments, accounts payable and withholding taxes payable.

Due to their short-term nature, the Fund's short-term financial instruments, consisting of cash, contributions and other receivables, accounts payable and accrued liabilities and withholding taxes payable are carried at cost which approximate their fair values. Investments are carried at fair values as described in Note 2(b) and are subject to interest, market, credit, currency, price and liquidity risks as described in Note 3.

f) Changes in Accounting Policies

The Fund intends to adopt the recommendations of the Canadian Institute of Chartered Accountants Section 4600 which will replace Section 4100 for financial statements relating to fiscal years beginning on or after January 1, 2011. Management is reviewing these standards and will assess the impact on the financial statements.

g) Adoption of New Accounting Standards

(i) EIC 173 - Credit Risk and the Fair Value of Financial Assets and Financial Liabilities

In January 2009, the Emerging Issues Committee (EIC) issued Abstract No. 173 (EIC - 173). The EIC recommends an entity to take into account its own credit risk and that of the relevant counter-party(s) when determining the fair value of financial assets and financial liabilities, including derivative instruments. This EIC had no impact on the Fund's financial statements.

2. Summary of Significant Accounting Policies (continued...)

g) Adoption of New Accounting Standards (continued...)

(ii) Section 3862 - Financial Instruments - Disclosures

Effective April 1, 2009, the Fund adopted the recent amendments to Canadian Institute of Chartered Accountants Section 3862, Financial Instruments - Disclosures

The amendments establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are as follows:

Level 1: Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities that the investment manager has the ability to access at the measurement date.

Level 2: Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly, including inputs in markets that are not considered to be active.

Level 3: Inputs that are unobservable. There is little if any market activity. Inputs into the determination of fair value require significant management judgement or estimation.

3. Investments

a) Investments

Investments consist of units held in the Master Trust. At year end, there are 372,683.616 (2009 - 318,418.338) units held in the Master Trust with a fair value of $1,145.29 (2009 - $1,120.04) per unit.

PROVINCE OF PRINCE EDWARD ISLAND

TEACHERS' SUPERANNUATION FUND

NOTES TO THE FINANCIAL STATEMENTS

JUNE 30, 2010

3. Investments

a) Investments (continued...)

Investments of the Master Trust consist of the following listed assets:

	2010	%	Income for the Year*	2009	%	Income for the Year*
Canadian short-term investments	$ 8,947,886	0.7%	$ 32,415	$ 12,234,204	1.1%	$ 403,387

Fund's investments**	$ 426,831,213		$20,763,999	$ 356,642,975		$ (33,173,281)

* Includes realized gains of $16.1 million (losses of $130.1 million in 2009) and unrealized gains of $20.9 million (losses of $16.1 million in 2009).

** Note the totals will not recalculate to the financial statements due to rounding in the pro-rated share.

Investments include amounts which investment managers of the Master Trust have invested in their own pooled funds. The fair values of these investments are as follows:

	2010	2009
Beutel, Goodman & Company Ltd.	$ 13,922,397	$16,008,620
Lazard Ltd.	129,409,824	-
Baille Gifford Overseas Ltd.	139,621,192	-
Northwater Capital Management Inc.	-	10,741,494
Total	$282,953,413	$26,750,114
Fund's pro-rated share	33.9127%	31.4093%
Fund's pooled funds	$ 95,957,142	$ 8,402,024

3. Investments (continued...)

b) Derivative Contracts

Derivative contracts are financial contracts, the value of which is "derived" from the value of underlying assets or exchange rates. Derivatives provide flexibility in implementing investment strategy.

Forward contracts are used to manage currency exposure and mitigate risk with respect to investments held in foreign currencies. The net notional amount of the currency forwards represents the volume of the outstanding transactions and serves as the basis upon which the return and the market value of the contract is determined.

The Fund is exposed to credit related losses in the event of non-performance by counter-parties to derivative financial instruments. In order to mitigate this risk, the Fund deals only with highly rated counter-parties, with whom International Swap and Derivative Association agreements have been executed, normally major financial institutions with minimum credit standard of "A" rating, as supported by a recognized credit rating agency.

Credit risk represents the maximum amount that would be at risk as at the reporting date if the counter-parties failed completely to perform under the contracts and if the right of offset proved to be non-enforceable. Credit risk exposure on derivative financial instruments is represented by the receivable replacement cost of contracts with counter-parties, less any prepayment collateral or margin received, as at the reporting date.

The following provides details of derivative contracts outstanding as of June 30, 2010:

Notional Amount	Fair Value
$164,419,153	$(3,329,723)

3. **Investments (continued...)**

c) Investment Risk Management

Risk management relates to the understanding and active management of risks associated with all areas of the business and the associated operating environment. Investments are primarily exposed to foreign currency, interest rate volatility, market price fluctuations, credit risk and liquidity risk. The Fund has set formal goals, policies and operating procedures that establish an asset mix among equity and fixed income, required diversification of investments within categories and set limits on the size of exposure to individual investments and counter-parties. Risk and credit committees have been created that regularly monitor the risks and exposures of the Fund. Plan sponsor oversight, procedures and compliance functions are incorporated into Fund processes to achieve consistent controls and to mitigate operational risk.

(i) Interest Rate Risk

Interest rate risk refers to the fact that the Fund's financial position will change with market interest rate changes, as fixed income securities are sensitive to changes in nominal interest rates. Interest rate risk is inherent in the management of a pension plan due to prolonged timing differences between cash flows related to the Fund's assets and liabilities.

Assuming all other variables are held constant, a one percent increase (decrease) in nominal interest rates would decrease (increase) the fair value of the fund by $10.5 million.

Value of Fixed Income Securities	Weighted Average Duration	Percent Change	Impact on Fair Value of the Fund	Fund's Pro-rated Share	Pro-rated Impact on Fair Value of the Fund
$496.5 m	6.24 yrs	1%	$31.0 m	33.9127%	$10.5 m

(ii) Price Risk

Price risk is the risk of fluctuation in market values of investments from influences specific to a particular investment or from influences on the market as a whole. Price risk includes interest rate risk and foreign currency risk which are also discussed in this note. Assuming all other variables are held constant, a ten percent increase (decrease) in market values of all public equities would increase (decrease) the fair value of the Fund by $25.0 million.

3. **Investments (continued...)**

c) Investment Risk Management (continued...)

(ii) Price Risk (continued...)

Value of Public Equities	Percent Change	Impact on Fair Value of the Fund	Fund's Pro-rated Share	Pro-rated Impact on the Fair Value of the Fund
$736.1 m	10%	$73.6 m	33.9127%	$25.0 m

(iii) Credit Risk

Credit risk is the risk of loss in the event the counter-party to a transaction fails to discharge an obligation and causes the other party to incur a loss. Credit risk associated with the Fund is regularly monitored and analyzed through risk and credit committees.

The Fund is exposed to credit risk from interest earning investments at June 30, 2010:

	2010 (millions)
Federal Government	$ 199.5
Provincial Government	98.9
Municipal Government	2.2
Corporate	214.2
Total investment credit risk exposure	$ 514.8
Fund's pro-rated share	33.9127%
Fund's investment credit risk exposure	$ 174.6
Provincial Government Promissory Note	64.0
Fund's total credit risk exposure	$ 238.6

The Fund participates in the Securities Lending Program whereby it lends securities for a fee to approved borrowers. To alleviate the credit risk, borrowers must provide collateral with a value of 105 percent of the value of the securities lent. The market value of the collateral is monitored, by the custodian at least daily to ensure that the 105 percent threshold is maintained. In addition, security loans are allocated across various borrowers within the program and the Fund holds indemnification coverage, which mitigates the credit risk and the market risk on the collateral.

3. **Investments (continued...)**

c) **Investment Risk Management (continued...)**

(iii) Credit risk (continued...)

The fair value of the security loans outstanding and collateral held is as follows:

	2010	2009
Total security loans outstanding	$215,450,019	$174,346,570
Fund's pro-rated share	33.9127%	31.4093%
Fund's security loans outstanding	$ 73,064,919	$ 54,761,037
Total collateral held	226,239,913	185,255,197
Fund's pro-rated share	33.9127%	31.4093%
Fund's collateral held	$ 76,724,063	$ 58,187,361

(iv) Foreign Currency Risk

Foreign currency exposure arises from the holding of investments denominated in foreign currencies. A policy of hedging from 30 percent up to 70 percent of the currency exposure is used to mitigate this risk.

The Fund's unhedged currency exposure from net investment assets as at June 30, 2010 is summarized in the following table:

Currency	2010 (millions)
Brazil	$ 12.1
Euro Zone	24.5
United Kingdom	30.1
Hong Kong	11.5
Japan	20.3
United States	83.6
Other	55.2
Total	$ 237.3
Plan's pro-rated share	33.9127%
Plan's foreign currency exposure	$ 80.5

After the effect of hedging, and without a change in all other variables, a ten percent increase (decrease) in the Canadian dollar against all other currencies would decrease (increase) the fair value of the fund by $8.1 million.

3. **Investments (continued...)**

c) **Investment Risk Management (continued...)**

(v) **Liquidity Risk**

Liquidity risk is the risk of not meeting the cash obligations of the Fund in an efficient manner. Cash obligations are fulfilled from contributions to the Fund, cash income of the Fund and planned dispositions of Fund assets as required. Cash requirements of the Fund are reviewed on an ongoing basis to provide for the orderly availability of resources to meet the financial obligations of the Fund.

The Fund's cash management policy ensures that the quality and liquidity of the investment vehicles within the cash portfolio are consistent with the needs of the Fund.

d) **Fair Value Disclosure**

The Fund's assets recorded at fair value have been categorized based upon a fair value hierarchy in accordance with the amendment to CICA 3862. See Note 2 (g) for a discussion of the Fund's policies regarding this hierarchy. The following fair value hierarchy table presents information about the Fund's assets measured at fair value on a recurring basis at June 30, 2010.

	Level 1	Level 2	Level 3	Total
Canadian short-term investments	$ 455,274	$ 4,068,438	$ 4,424,174	$ 8,947,886
Other liquid assets	2,027,464	-	197	2,027,662
Bonds, debentures and notes	-	496,545,747	14,145,540	510,691,287
Canadian equity securities	316,406,521	-	-	316,406,521
Foreign equity securities	419,658,359	-	-	419,658,359
Currency forwards	-	(3,329,723)	-	(3,329,723)
Totals	$738,547,618	$497,284,462	$18,569,911	$1,254,401,992
Accrued income				4,215,615
Total financial assets at fair value				$1,258,617,607
Fund's pro-rated share				33.9127%
Fund's investments				$ 426,831,213

e) **MAV II Notes**

The Master Trust holds MAV II notes (originally bank-sponsored asset backed commercial paper) in its bonds, debentures and notes portfolios. The carrying value of the MAV II notes held at June 30, 2010 was $14,145,000 (or $23,356,000 face value less a $9,211,000 discount). Carrying value of the MAV II notes are calculated using management's best estimates based on available information reflecting an illiquid market.

3. **Investments (continued...)**

e) **MAV II Notes (continued...)**

The carrying value assigned to the MAV II notes held by the Master Trust may differ from the actual value realized on any sale or other liquidation. As a result of these uncertainties, the reported value may change materially in subsequent periods.

4. **Obligation for Pension Benefits for Accounting Purposes**

The present value of accrued pension benefits was determined using the projected unit credit method pro-rated on service and best estimate assumptions. The most recent actuarial valuation for accounting purposes prepared by the actuarial consulting firm Morneau Sobeco, disclosed an unfunded liability of $78,400,000 as at April 1, 2008.

The estimated present value of accrued benefits as of June 30, 2010, the principal components of changes in actuarial present values during the year and the estimated unfunded liability were as follows:

	2010	2009
Estimated present value of accrued benefits, beginning of year	$594,388,000	$570,108,000
Interest accrued on benefits	45,807,000	41,601,000
Benefits accrued	11,920,000	12,410,000
Increase due to purchase of service	863,000	539,000
Benefits paid	(37,908,000)	(36,291,000)
Changes due to:		
Actuarial valuation		6,021,000
Actuarial projection	(17,725,000)	-
Estimated present value of accrued benefits, end of year	597,345,000	594,388,000
Net assets available for benefits	494,405,000	492,774,000
Unfunded liability	$102,940,000	$101,614,000

The economic assumptions used in determining the actuarial value of accrued pension benefits for accounting purposes were developed by reference to expected long-term market conditions. For 2010, formal actuarial projections were performed for the Prince Edward Island Teachers Superannuation Fund to reflect changes to the discount rate and expected rate of return assumptions. Significant actuarial assumptions used in the actuarial projections were:

Expected inflation rate	2.50%
Discount rate used to determine accrued obligation	7.63%
Expected rate of return on plan assets	7.63%
Pension cost of living increases	1.40%

4. Obligation for Pension Benefits for Accounting Purposes (continued...)

The estimated present value of accrued benefits includes amounts owing to terminate non-vested members in the form of contributions plus interest.

The Consolidated Financial Statements of the Province records the obligation using the method of accounting disclosed above.

5. Funding Policy and Special Contributions

In accordance with the *Teachers' Superannuation Act*, employees are required to contribute to the Plan as described in Note 1(b). The employer matches employee contributions to the Fund. Under Section 9 of the *Teachers' Superannuation Act*, payments out of the Fund are guaranteed by the Province of Prince Edward Island.

As a result of an unfunded liability at July 1, 2005, the Province of Prince Edward Island made a special contribution through the signing of a $160,000,000 promissory note. The note, which is held by the Fund, is receivable in ten equal annual installments of $16,000,000 beginning April 15, 2005. Interest on the note is accrued at a rate of 4.345 percent per annum and is receivable semi-annually on April 15 and October 15. Prior to April 15, 2014, any monies owing may be suspended on six months prior notice if the Minister of Finance and Municipal Affairs deems the funded level, excluding any outstanding balances on promissory notes, to be 90 percent on a going concern basis as defined in the Province of Prince Edward Island Funding Policy for Government Sponsored Registered Pension Plans. Interest will be accrued to the date of any suspension implemented. Any monies suspended prior to and including April 15, 2014, are no longer due and owing. Provided no further monies are payable, the promissory note shall be deemed paid in full.

The following is a schedule of principal and interest payments as disclosed in the promissory note:

Principal Payments		Interest Payments	
Date of Payment	Principal Payment	April 15	October 15
April 15, 2005	$ 16,000,000	$ -	$ 3,128,400
April 15, 2006	16,000,000	3,128,400	2,780,800
April 15, 2007	16,000,000	2,780,800	2,433,200
April 15, 2008	16,000,000	2,433,200	2,085,600
April 15, 2009	16,000,000	2,085,600	1,738,000
April 15, 2010	16,000,000	1,738,000	1,390,400
April 15, 2011	16,000,000	1,390,400	1,042,800
April 15, 2012	16,000,000	1,042,800	695,200
April 15, 2013	16,000,000	695,200	347,600
April 15, 2014	16,000,000	347,600	-
	$160,000,000	$15,642,000	$15,642,000

5. Funding Policy and Special Contributions (continued...)

Since the promissory note was not signed until February 16, 2006, but provided for a principal payment as of April 15, 2005, additional interest was paid on the scheduled principal payment of April 15, 2005, as the first payment was not made until March 16, 2006.

An objective of the funding policy is to be 90 percent funded at each actuarial valuation date. If the funded level is less than 90 percent the policy requires a special contribution to be made by the Province to bring the Fund to a 90 percent funded level. The most recent going concern actuarial valuation for funding purposes, dated July 1, 2008, determined an unfunded liability of $130,500,000. At the valuation date, after taking into consideration net assets, the outstanding balance on the promissory note and the present value of excess contributions as stipulated in the Funding Policy, the funded level was 81 percent. As a result, the Province made a special cash contribution of $53,000,000 to the Fund on March 12, 2010, to bring the funded level, including the outstanding balance on the promissory note, to 90 percent.

6. Operating Expenses

The Fund is charged with administrative and certain other expenses. The following is a summary of these expenses:

		2010	2009
Administrative expenses	- pension section	$ 275,173	$ 210,791
	- investment section	63,526	43,423
		338,699	254,214
Consulting fees		20,686	82,309
Investment expenses		1,454,408	1,063,974
Total		$1,813,793	$1,400,497

7. Related Party Transactions

The Province of Prince Edward Island is the sponsor of the Plan and a participating employer. The Province guarantees all payments owing by the Fund and has committed to the funding requirements as defined by the Funding Policy (Note 5). As a participating employer, the Province matches regular bi-weekly employee and eligible prior period service contributions. Contributions receivable from the Province as at June 30, 2010, totalled $1,534,978 (2009 - $180,633).

The Province provides Pension and Investment Administration services to the Fund. A portion of the Province's costs relating to these services is recovered annually from the Fund. Costs recovered for the Pension section totalled $146,190 (2009 - $144,390) and recoveries related to the Investment section totalled $63,526 (2009 - $43,423). Other costs recovered by the Province totalled $116,858 (2009 - $70,382).

Total amounts payable to the Province at June 30, 2010, was $93,734 (2009 - $199,895).

PROVINCE OF PRINCE EDWARD ISLAND

TEACHERS' SUPERANNUATION FUND

NOTES TO THE FINANCIAL STATEMENTS

JUNE 30, 2010

8. Subsequent Event

Effective January 1, 2011, the *Teachers Superannuation Act* was amended and members whose employment is excluded from the *Canada Pension Plan Act* and is not subject to that Act, will no longer contribute 9 percent of their salary as previously arranged. Like all members, they will contribute 7.3 percent of that part of the members' salary up to the amount of the YMPE and 9 percent on the amount that exceeds the YMPE.

9. Prior Period Comparatives

Prior period results have been restated to confirm to the presentation format adopted in the current period.
