### **Note from the Chair**

Publication Date: June 2023

The Honourable Natalie Jameson Minister of Education and Early Years Province of Prince Edward Island PO Box 2000 Charlottetown, PE C1A 7N8

### Dear Madam:

In accordance with section 4.1 of the *Teachers' Pension Plan Act*, I am pleased to present to you the Annual Report of the Province of Prince Edward Island Teachers' Pension Plan for the fiscal year ended June 30, 2022.

Respectfully submitted,

Bethany MacLeod, Chair

Teachers' Pension Commission

SINCE INCEPTION (Average rate per annum)

### **About the Plan**

The Teachers' Pension Plan (the Plan) is a Defined Benefit Registered Pension Plan that provides members with a lifetime of monthly payments upon retirement.

Members contribute to the Plan through regular payroll deductions, which are matched by the employer. Plan assets are invested by external investment managers to generate further earnings to support the Plan.

All permanent employees are required to contribute a percentage of their bi-weekly earnings to the Plan beginning upon employment. The employer matches these contributions each pay period.

The percentage of contributions for 2021 - 2022 is as follows:

8.30%
of pensionable earnings
up to the YMPE

and

10.00% of pensionable earnings in excess of the YMPE

The YMPE is the Year's Maximum Pensionable Earnings, which is an amount determined by the Canada Pension Plan.

The YMPE was \$61,600 for 2020 and \$64,900 for 2022.

Please note:

In the event of a discrepancy between the annual report and Teachers' Pension Plan Act, the legislation shall prevail.

### **About the Plan**

# Your TPP pension will likely be one of your most valuable financial assets in retirement.

Your pension is calculated using this simplified formula, which does not reflect the offset at age 65 for Canada Pension Plan (CPP) benefits:

<sup>\*</sup> For salaries below the CPP's YMPE, the 2% benefit is comprised of a 1.3 percent lifetime benefit and a 0.7 percent temporary bridge benefit, payable from the date of retirement to age 65.

Members are eligible to retire as early as their 55th birthday, which may involve a reduced pension.

As of January 1, 2019, members can access an unreduced pension under the Rule of 32/62\*:

- attain 32 or more years of pensionable service (while being at least 55 years old); or
- attain the age of 62 with a least two years of pensionable service.

A member who is at least 55 years old and does not meet the Rule of 32/62 can still opt to retire and will receive a reduced pension. The total pension amount is reduced by the lesser of:

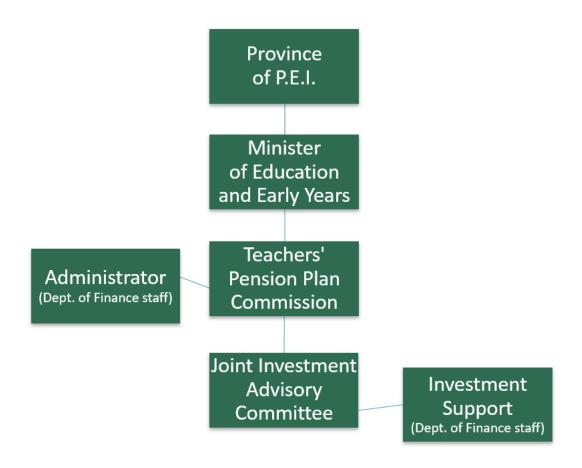

- 3.0 percent for each year prior to attaining 32 years of pensionable service, or
- 3.0 percent for each year prior to age 62.

<sup>\*</sup> All service prior to 2019 will be assessed using the 30 years of service or 60 years of age rule. This may result in a minimal reduction if most service took place prior to 2019.

### Governance & Administration

# The TPP is governed by the Teachers' Pension Plan Act (TPPA) and is sponsored by the Government of Prince Edward Island.

The Minister of Finance is responsible for the administration of the Plan. The day-to-day administrative duties have been assigned to the Pensions & Benefits and Fiscal Management divisions.

### **Governance & Administration**

### The Teachers' Pension Commission was established to assist and advise the Minister in certain aspects of plan administration and investment monitoring.

The Commission strengthens governance by providing a forum which facilitates open consultation and communication among those parties who have a primary interest in the smooth functioning of the Act.

The Commission is made up of representatives from the employers, participating unions and retirees whose pension funds are invested in the Plan, as well as government staff.

The Commission held three meetings during the 2021-2022 fiscal year. As of June 30, 2022, the Commission had the following 8 members:

Employer Representatives:				
Chairperson - Deputy Minister of Education and Lifelong Learning	Bethany MacLeod	Attended: 2 of 3		
Department of Education and Lifelong Learning	Chris DesRoche	Attended: 1 of 3		
Department of Finance	Judy Killam	Attended: 2 of 3		
Department of Justice and Public Safety	Blair Barbour	Attended: 3 of 3		
Employee Representatives:				
PEI Teachers' Federation	Mary Hart Shaun MacCormac Patrick MacFadyen	Attended: 3 of 3 Attended: 3 of 3 Attended: 3 of 3		
Retiree	Michel Plamondon	Attended: 3 of 3		

Commissioners are not paid for their service but they are reimbursed for any eligible travel and training fees they incur.

Upon joining the Commission, a Commissioner is expected to attain a basic level of knowledge on pension matters by participating in approved education programs. Each Commissioner is expected to participate in at least 15 hours of training in a three-year cycle.

## **Plan Valuation Summary**

# An actuarial valuation is a mathematical report that measures the financial health of a pension plan.

It evaluates the funded status of the Plan by calculating the value of pension promises made to members and comparing it to the assets set aside to pay for those promises.

Funded status has an impact on things such as indexation to be applied to annual pensionable earnings for active members, fund contribution rates for employees and employers, and adjustments to pension benefits for retirees.

The funded status is calculated by dividing the net assets available for benefits (assets) by the base benefit liabilities (liabilities). When the result is expressed as a percentage, it is known as the funded ratio.

A funded ratio greater than 100% means the Plan has a surplus, while a funded ratio less than 100% means the Plan is in deficit. The Plan must use surplus funds to award indexation to both active members and pensioners. If the Plan is in deficit, indexation cannot be awarded for that fiscal year.

Based on the valuation as at April 1, 2022, the funded ratio of the Plan is as follows:

<sup>\*</sup>Figures shown above are rounded to the nearest \$1 million.

# Plan Valuation Summary

Table 1 - Going-Concern Financial Position as per April 1, 2022, valuation report

Value of Assets				
Market Value	\$1,097,802,900			
Actuarial Liability		Percentage of Total Liabilities		
Active Members	\$321,846,300	36.86%		
Deferred Members	5,430,400	0.62%		
Retired Members and Beneficiaries	545,798,200	62.52%		
Total	\$873,074,900			
Actuarial Surplus (Unfunded Liability)	224,728,000			
Funded Status (amount in excess of 100% represents indexation reserve)	125.7%			

Table 2 - Membership Data as per April 1, 2022, valuation report (measured at Sept. 1, 2019)

<b>Active Members</b>			
Number	1,759	Average salary	\$81,594
Total annual payroll	\$143,523,899	Average credited service	13.2 years
Average age	44.2		

Members on leave (active)		Deferred Pensioners		
Number	71	Number 153		
Average annual pension	\$10,339	Average annual pension	\$7,999	
Average attained age	40.9 years	Average age 43.1 years		
Pensioners		Non-vested Members (inactive)		
Number	1,707	Number	524	
Average annual pension	\$29,078	Estimated average contributions with interest	\$3,352	
Average age	71.6 years	Average age	46.7 years	

### **Inflation Protection**

Indexation awards, which protect against the effects of inflation, are contingent on the Funded Benefits Ratio of the Plan.

### **Pre-Retirement Indexation**

Salary indexation for members who are actively contributing to the Plan will only be awarded if the plan is in surplus (i.e. the Funded Benefits Ratio is greater than **100%**).

Indexation shall not be awarded if the Funded Benefits Ratio is below 100% in any given year. However, if indexation is not awarded and the funded status subsequently recovers beyond **115%**, there shall be an automatic assessment to determine if all or part of the missed indexation can be awarded on a go-forward basis.

The maximum indexation award is 100% of the Average Industrial Wage (AIW); however, if the plan cannot afford the maximum amount, partial indexation will be awarded.

A summary of pre-retirement indexation awarded for 2017 and beyond is provided below:

Pension Year	<b>Indexation Amount</b>
Sept. '21 -Aug. '22	7.15%
Sept. '20 –Aug. '21	3.22%
Sept. '19 –Aug. '20	2.26%
Sept. '18 –Aug. '19	2.43%
Sept. '17 –Aug. '18	0.70%

### **Post-Retirement Indexation**

Indexation for members who are drawing pension will only be awarded if the Funded Benefits Ratio is greater than **110%**.

Indexation will not be awarded if the Funded Benefits Ratio is below 110% in any given year. However, if indexation is not awarded and the Funded Benefits Ration subsequently reaches 118%, then a portion of the surplus funds will be used to make up for missed indexations on a go-forward basis by topping up that year's indexation award.

The maximum indexation award is 100% of the Consumer Price Index (CPI); however, if the plan cannot afford the maximum amount, partial indexation will be awarded.

A summary of pre-retirement indexation awarded for 2017 and beyond is provided below:

Award Date	<b>Indexation Amount</b>
January 1, 2022	0.61%
January 1, 2021	2.00%
January 1, 2020	2.15%
January 1, 2019	1.63%
January 1, 2018	1.52%

# **Investment Management**

The TPP's investment assets are managed by professional fund managers who must follow the Statement of Investment Policies and Procedures (SIP&P) approved by the Minister of Finance.

These investment assets are held in the Province of Prince Edward Island Master Trust. The TPP, MLA Pension Fund and the Public Sector Pension Plan participate in the Master Trust. In 2021-2022, approximately 28.48% of the funds in the Master Trust were assets of the TPP. The total asset balance of the Master Trust as at June 30, 2022, was \$3,022,951,163.

### TPP Investment Fund Managers at June 30, 2022:

### **Canadian Equity:**

Beutal Goodman & Company

### Global Equity:

TD Asset Management Baillie Gifford Wellington Management

#### **Fixed Income:**

TD Asset Management
Goldman Sachs Asset Management

### **Canadian Real Estate:**

TD Asset Management

### Global Real Estate:

State Street Global Advisors Morgan Stanley CBRE

#### Infrastructure:

Global Infrastructure Partners Lazard Asset Management

<sup>\*</sup> Province of PEI Promissory Notes also fall under the Fixed Income asset class.

# **Investment Management**

### The Joint Investment Advisory Committee (JIAC) assists the Province with the investment of Plan assets.

The JIAC provides advice to the Minister of Finance on the following items:

- Protection of the principal assets of the Master Trust and monitoring of costs
- Recommendations on investment fund asset mix
- Review of investment fund and fund manager performance
- Compliance with both federal and provincial requirements relating to ownership of foreign equities

At June 30, 2022, the following were members of the JIAC:

Voting Members:		
Chairperson - Deputy Minister of Finance	Denise Lewis Fleming	Attended: 4 of 4
Member of Legislative Assembly	Sidney MacEwen*	Attended: 1 of 3

<sup>\*</sup> Last meeting December 2021 \*\* Appointed in December 2021

<sup>\*\*\*</sup> Appointed in January 2022

# **Investment Management**

Our investment strategy, which is guided by the SIP&P, aims to maximize returns within a reasonable level of risk in order to meet our pension obligation.

The Plan asset mix is a vital element of our investment strategy and is determined by the TPP Commission through an exercise called an Asset Liability Modelling Study (ALM Study). An ALM Study was in progress at the end of the 2021-2022 fiscal year and the results of which will be reflected in next year's report.

Rebalancing back to the benchmark occurs if the actual allocation falls outside of the stated range.

Target Range	Benchmark	Actual Allocation as at June 30, 2022		
0.0% - 4.0%	0.0%	1.8%		
19.5% - 25.5%	22.5%	24.7%		
22.0% - 28.0%	25.0%	22.6%		
7.0% - 13.0%	10.0%	9.4%

### Management's Report

### Management's Responsibility for the Financial Statements

The financial statements have been prepared by management in accordance with Canadian Accounting Standards for Pension Plans and the integrity and objectivity of these statements are management's responsibility. Management is responsible for the notes to the financial statements and for ensuring that this information is consistent, where appropriate, with the information contained in the financial statements.

Management is responsible for implementing and maintaining a system of internal control to provide reasonable assurance that reliable financial information is produced.

The Prince Edward Island Teachers' Pension Plan Commission is responsible for ensuring that management fulfills its responsibilities for financial reporting and internal control. The Commission reviews internal financial reports on a regular basis and externally audited financial statements yearly.

The Office of the Auditor General conducts an independent examination, in accordance with Canadian generally accepted auditing standards and expresses their opinion on the financial statements. The Office of the Auditor General has full and free access to financial information and management of the Prince Edward Island Teachers' Pension Plan to meet as required.

On behalf of the Prince Edward Island Teachers' Pension Plan

Pamela MacEachern

Acting Manager, Pensions and Benefits

#### INDEPENDENT AUDITOR'S REPORT

To the Commissioners of the Prince Edward Island Teachers' Pension Plan

### Opinion

I have audited the financial statements of the **Prince Edward Island Teachers' Pension Plan**, which comprise the statement of financial position as at June 30, 2022, the statements of changes in net assets available for benefits and changes in pension obligation for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In my opinion, the financial statements present fairly, in all material respects, the financial position of the Plan as at June 30, 2022 and the changes in its net assets available for benefits and its pension obligation for the year then ended in accordance with Canadian Accounting Standards for Pension Plans.

### **Basis for Opinion**

I conducted the audit in accordance with Canadian generally accepted auditing standards. My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of my report. I am independent of the Plan in accordance with the ethical requirements that are relevant to my audit of the financial statements in Canada, and I have fulfilled my other ethical responsibilities in accordance with these requirements. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

### Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Canadian Accounting Standards for Pension Plans and for such internal control that management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Plan's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless an intention exists to liquidate or cease the operations of the Plan, or there is no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Plan's financial reporting process.

#### Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report

- Tel/Tél.: 902 368 4520 assembly.pe.ca/auditorgeneral Fax/Téléc.: 902 368 4598

	•			•
			•	

that includes my opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, I exercise professional judgment and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to
  fraud or error, design and perform audit procedures responsive to those risks, and obtain audit
  evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not
  detecting a material misstatement resulting from fraud is higher than for one resulting from error,
  as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override
  of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures
  that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
  effectiveness of the Plan's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Plan's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Plan to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the
  disclosures, and whether the financial statements represent the underlying transactions and
  events in a manner that achieves fair presentation.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

Notes to Financial Statements June 30, 2022

### 1. Plan Description

The following description of the Prince Edward Island Teachers' Pension Plan (the Plan) is a summary only. For more complete information, reference should be made to the *Teachers' Pension Plan Act* and *Regulations*.

### a) General

The Plan is a contributory defined benefit plan covering members as defined in the Teachers' Pension Plan Act.

### b) Contributions

Under the Plan, members make contributions amounting to 8.3 percent of that part of the members' salary up to the amount of the year's maximum pensionable earnings (YMPE) as defined in the *Canada Pension Plan Act* and 10.0 percent on the amount that exceeds the YMPE. Participating employers match member contributions. Herein these are considered the Base Contributions. Beginning January 1, 2017, variable contributions have been introduced based on the funded benefits ratio as defined below (note that contribution changes by funded level are total and not cumulative).

Funded Benefits Ratio	Employee Contributions <sup>1</sup>	Participating Employer Contributions <sup>1</sup>
<100% <sup>2</sup>	Base Contributions plus 1%	Base Contributions plus 4%
100% to 110% <sup>3</sup>	Base Contributions plus 1%	Base Contributions plus 2%
110% to 135%	Base Contributions	Base Contributions
135% to 145% <sup>4</sup>	Base Contributions less 1%	Base Contributions less 2%
145% + <sup>5</sup>	Base Contributions less 1%	Base Contributions less 4%

<sup>1.</sup> Subject to the Income Tax Act Rules for maximum contributions.

### c) Retirement Benefits

Pension Formula: The annual pension is based on the number of years of service times two percent of average salary with a reduction at age 65 for estimated Canada Pension Plan ("CPP") benefits. The reduction is referred to as a bridge pension and only payable to age 65. The bridge is based on the number of years of service times 0.7 percent of average salary to a maximum of the average CPP year's maximum pensionable earnings. For service prior to December 31, 2013, average salary and year's maximum pensionable earnings is based on the best five-year average. For service commencing January 1, 2014, average salary and year's maximum pensionable earnings is based on career average.

<sup>2</sup> If triggered, contributions based on funded benefits ratio <100% remain in effect until funded benefits ratio of ≥ 105% is attained</p>

<sup>3.</sup> If triggered, contributions based on funded benefits ratio <110% remain in effect until funded benefits ratio of ≥ 115% is attained

If triggered, contributions based on funded benefits ratio ≥135% remain in effect until funded benefits ratio of ≤ 130% is attained.
 If triggered, contributions based on funded benefits ratio ≥145% remain in effect until funded benefits ratio of ≤ 140% is attained.

Notes to Financial Statements June 30, 2022

### 1. Plan Description (continued...)

Pre-Retirement Indexation: Benefits earned during 2014 to 2016, were automatically indexed at 1.5 percent per annum. As this indexation is guaranteed, it is included in the Base Benefits, which are the Plan benefits prior to any future contingent indexation. In 2017 and beyond, pre-retirement indexation will only be awarded if the funded benefits ratio (as determined at the April 1st immediately prior to the calendar year in which indexation is to be awarded) is greater than 100 percent. If there are years that full indexation is not awarded, and if the funded benefits ratio subsequently reaches 115 percent, then a portion of Plan funds is available to make up for missed indexation in the past. The maximum indexation is 100 percent of the increase in the Average Industrial Wage (AIW) in Canada; however, if in any year the assets available to be spent on inflation protection are not adequate to provide the full amount, partial indexation will be awarded.

Post-Retirement Indexation: For 2014 to 2016, post-retirement indexation was automatically awarded at 0.9 percent per annum. As this indexation is guaranteed, it is included in the Base Benefits. In 2017 and beyond, post-retirement indexation will only be awarded if the funded benefits ratio (as determined at the April 1st immediately prior to the calendar year in which indexation is to be awarded) is greater than 110 percent. If there are years that full post-retirement indexation is not awarded, and if the funded benefit ratio subsequently reaches 118 percent, then a portion of Plan funds is available to make up for missed past indexation on a go-forward basis (i.e. no retroactive payments). The maximum indexation is 100 percent of the Consumer Price Index (CPI); however, if the Plan cannot afford that amount, partial indexation will be awarded. Indexation also applies to deferred vested benefits and is applied in the same manner as the post-retirement indexation.

Retirement Age: For pensionable service prior to January 1, 2019, the earliest unreduced retirement age remains at the earlier of 30 years of pensionable service (minimum of age 55) and attained age 60. For pensionable service after December 31, 2018, the earliest unreduced retirement age will be the earlier of 32 years of pensionable service (minimum of age 55) and attained age 62. The earliest retirement age is 55 with two years of continuous service.

### d) Disability Benefits

Disability benefits are available at any age to a member who retires from teaching service because of total and permanent disability provided the member contributed to the Plan for two or more years.

### e) Death Benefits

Less than two years of continuous service: On the death of a member prior to completing two years of pensionable service, the member's accumulated contributions with interest will be refunded.

Notes to Financial Statements June 30, 2022

### 1. Plan Description (continued...)

Greater than or equal to two years of continuous service: If a member dies prior to retirement but after completing two years of service, the member's spouse is entitled to an immediate lifetime pension equal to 60 percent of the accrued, unreduced pension of the member at the time of death. In addition to the spousal pension, an allowance equal to ten percent of the members' or vested former members' pension entitlement at death prior to retirement is payable in respect of each dependent child, up to a maximum of four children, until the child is no longer a dependent child or upon the death of the dependent child. Where a member dies after two years of service and before retirement and does not leave a surviving spouse or dependent children, the personal representative of the member shall receive a lump sum amount equal to one and a half times the member's accumulated contributions plus interest.

If the spouse of the member dies before the member, or where having survived the member the surviving spouse dies leaving children by the member, the 60 percent pension that was payable to the spouse will be paid to the dependent child or the guardian of that child, if the member or vested former member is survived by only one dependent child, or the oldest dependent child or the guardian of that child.

### f) Termination and Portability of Benefits

In the event of termination of employment for reasons other than retirement or death, a member may elect to receive either:

- a refund of the member's own contributions with interest; or
- if the member has completed at least two years of service, a deferred pension subject to the provisions outlined in the *Retirement Age* section at Note 1(c).

Where there are portability arrangements between the Plan and other plans, members may be able to carry certain pension benefits to those other plans or transfer contributions and service from those other plans to increase pension benefits under the Plan.

#### g) Marriage Breakdown

Upon application, the pension benefits to which a person is entitled may be divided between the person and the spouse or former spouse.

### h) Income Tax

The Plan is a Registered Pension Plan as defined under the federal *Income Tax Act* and is not subject to taxation.

Notes to Financial Statements June 30, 2022

### 2. Summary of Significant Accounting Policies

### **Basis of Accounting**

The financial statements have been prepared in accordance with Canadian Accounting Standards for Pension Plans as outlined in the Chartered Professional Accountants of Canada (CPA) Handbook Section 4600, Pension Plans. For accounting policies that do not relate to either investments or pension obligations, the Plan has elected to comply on a consistent basis with International Financial Reporting Standards (IFRS) in Part 1 of the CPA Handbook. To the extent that IFRS in Part 1 is inconsistent with Section 4600, Section 4600 takes precedence.

Included in the determination of the accrued pension obligation for pension retirement benefits is a liability for contingent indexation.

For the year ended June 30, 2022, the contingent indexation liability is calculated based on total plan assets less the accrued pension obligation on base benefits assuming no further contingent indexation. This calculation does not incorporate the potential impact of future events such as contributions, gains or losses on asset returns, and new benefit accruals.

Significant judgment is involved in the accounting treatment of contingent indexation. Management recognizes that the contingent indexation liability represents a challenge for pensions in Canada. Going forward, management will continue to monitor developments in the accounting standards and practices when assessing the most appropriate accounting treatment for plans with a contingent indexation liability component.

These financial statements are prepared on a going concern basis and present the aggregate financial position of the Plan as a separate reporting entity.

### a) Use of Estimates and Measurement Uncertainty

The preparation of financial statements in conformity with Canadian Accounting Standards for Pension Plans requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the period. Items requiring the use of significant estimates include investments, accrued interest, accrued liabilities, and the accrued pension obligation.

Estimates are based on the best information available at the time of preparation of the financial statements and are reviewed annually to reflect new information as it becomes available. Measurement uncertainty exists in these financial statements. Actual results could differ from these estimates and the differences could be material.

### b) Foreign Currency Translation

Transactions denominated in foreign currencies are translated into Canadian dollars at the rate of exchange prevailing on the transaction date. The fair value of foreign investments

Notes to Financial Statements June 30, 2022

### 2. Summary of Significant Accounting Policies (continued...)

and cash held at year-end are translated at the rates in effect at that date. The resulting gain or loss from changes in these rates is included in the current period change in fair value of investments.

### c) Fair Value Measurement

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction on the measurement date.

When available, the Plan measures the fair value of an instrument using quoted prices in an active market for that instrument. A market is regarded as active if quoted prices are readily and regularly available and represent actual and regularly occurring market transactions on an arm's length basis.

If a market for a financial instrument is not active, then the Plan establishes fair value using a valuation technique. Valuation techniques include using recent arm's length transactions between knowledgeable, willing parties (if available), reference to the current fair value of other instruments that are substantially the same, and/or discounted cash flow analysis.

#### d) Financial Instruments

The Plan's financial instruments include cash, investments, notes receivable, contributions receivable, accrued interest, other receivables, accounts payable, accrued liabilities, remittances payable, and investment fees payable. Due to their nature, the Plan's financial instruments, with the exception of investments, are carried at amortized cost which approximates their fair value. Credit risk is considered low for non-investment financial assets since most are from the Province or other government organizations. Investments are classified as fair value through the statement of changes in net assets available for benefits. Investments are carried at fair value and are subject to interest rate, price, credit, foreign currency, and liquidity risks as described in Note 3.

#### e) Investments

The Province sponsors various defined benefit pension plans. The primary plans are the PEI Public Sector Pension Plan, and the PEI Teachers' Pension Plan. Investments of the primary plans are held within the Province of PEI Master Trust, which is administered by external investment managers under policy guidelines set down by Executive Council and supervised by a Joint Investment Advisory Committee to the Minister of Finance. Investments are allocated to each primary plan by units of their participation.

Significant accounting policies for the investments held in the Master Trust consist of:

#### (i) Investment Transactions

Investment transactions are recognized on the transaction date. Distributions are recognized on the record date. Investments include receivables and payables at June 30, 2022 for interest, dividends, and settled derivative contracts.

Notes to Financial Statements June 30, 2022

### 2. Summary of Significant Accounting Policies (continued...)

### (ii) Income Recognition

Income from investments is recorded on an accrual basis and includes interest and dividends as well as realized and unrealized gains and losses on investments.

### (iii) Investment Valuation

### Equity and debt

Equity and debt investments are valued at fair value based on quoted market values. Changes in the market value of investments, including realized and unrealized gains and losses, are reflected in the financial statements as a change in the fair value of investments.

### Equity investment in real estate

Investment in real estate is represented by an equity investment in a corporation that invests in real estate, participating mortgages, and property for development or resale. Properties within the corporation are valued annually by independent appraisers in accordance with generally accepted appraisal practices and procedures. The appraisal methodology followed is an income approach which is mainly based on discounted cash flows. In estimating future cash flows, certain assumptions are made with respect to future economic conditions and rates of return.

#### **Pooled funds**

Pooled funds are valued at the unit values supplied by the pooled fund administrator, which represents the Plan's proportionate share of underlying net assets at fair values determined using closing market prices.

### Private equity

The Plan holds investments in a limited partnership fund structure which makes investments in high-growth, predominantly late-stage private companies across sectors and around the globe. Fair value is based upon a number of factors, including but not limited to, original transaction prices, recent transactions in the same or similar instruments, completed or pending third party transactions in the underlying or comparable investments, subsequent rounds of financing, recapitalizations and other transactions across the capital structure, offerings in equity or debt capital markets, implied multiples for comparable investments, and changes in financial performance or cash flows.

### **Derivative contracts**

The derivative contracts held by the Plan are stated at fair value and are valued using quoted market indices. Realized and unrealized gains or losses on investments from derivative contracts are included in the change in the fair value of investments.

### Investment in foreign infrastructure

The Plan owns units in a foreign infrastructure partnership. The partnership invests in portfolio companies that own, operate, develop, manage, and support infrastructure assets. Fair value is based upon a number of factors, including readily available market quotes with appropriate adjustments for trading restrictions, the most recent round of

Notes to Financial Statements June 30, 2022

### 2. Summary of Significant Accounting Policies (continued...)

financings, earnings-multiple analysis using comparable companies, or discounted cash flow analysis.

### (iv) Transaction Costs

Investment management fees are costs directly attributable to the external management of the assets. All fees incurred on the management of investments are recorded as an investment expense. Investment expenses are disclosed in Note 7.

### f) Revenues and Expenses

Revenues and expenses are recorded on an accrual basis in the period in which the transaction or event that gave rise to the revenue or expense occurred.

### g) Accrued Pension Obligation

The value of the accrued pension obligation of the Plan is based on an annual actuarial valuation prepared on an accounting basis by an independent actuary using the projected unit credit method pro-rated on service and best estimate assumptions. The accrued pension obligation is measured in accordance with accepted actuarial methods using actuarial assumptions and methods adopted by the Plan.

### 3. Investments and Derivatives

### a) Investments

Investments consist of units held in the Master Trust. At year-end, there were 688,763.311 units held in the Master Trust (2021 - 654,831.646) with a fair value of \$1,250.00 (2021 - \$1,428.25) per unit.

Investments of the Master Trust consist of the following listed assets:

	<u>2022</u>	<u>%</u>	<u>2021</u>	<u>%</u>

Notes to Financial Statements June 30, 2022

# 3. Investments and Derivatives (continued...)

# b) Derivative Contracts

Derivative contracts are financial contracts, the value of which is "derived" from the value of underlying assets or exchange rates. Derivative contracts provide flexibility in implementing investment strategy.

Forward contracts are used to manage currency exposure and mitigate risk with respect to investments held in foreign currencies. The net notional amount of the currency forwards represents the volume of outstanding transactions and serves as the basis upon which the return and market value of the contract is determined.

The details of the Master Trust's derivative contracts are as follows:

	<u>2022</u> \$	<u>2021</u> \$
Notional Amount	<u>766,127,455</u>	771,503,641
Fair Value	(12,397,906)	<u>(13,997,113</u> )

### c) Fair Value Disclosure

Plan investment assets recorded at fair value have been categorized based upon a fair value hierarchy of significant inputs used in measuring fair value. The following fair value hierarchy tables present information about the Plan's assets measured at fair value on a recurring basis at June 30, 2022 and June 30, 2021.

The three levels of the fair value hierarchy are as follows:

Level 1: Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities that the investment manager has the ability to access at the measurement date. Level 1 primarily includes publicly listed investments.

Level 2: Inputs other than quoted prices that are observable either directly or indirectly, including inputs in markets that are not considered to be active. Level 2 primarily includes debt securities, investments in real estate and derivative contracts not traded in an open market.

Level 3: Inputs that are unobservable. There is little, if any, market activity. Inputs into the determination of fair value require significant management judgment and/or estimation. Level 3 primarily consists of foreign infrastructure investments and private equity.

Notes to Financial Statements June 30, 2022

# 3. Investments and Derivatives (continued...)

The following table illustrates the classifications of the Plan's financial instruments using the fair value hierarchy as at June 30.

<sup>\*</sup>Rounded

### d) Investment Risk Management

Risk management relates to the understanding and active management of risks associated with all areas of the business and the associated operating environment. Investments are primarily exposed to interest rate, price, credit, foreign currency, and liquidity risk. The Plan has set formal goals, policies, and operating procedures that establish an asset mix among equity and fixed income, require diversification of investments within categories, and set limits on the size of exposure to individual investments and counter parties.

Risk and credit considerations are periodically assessed in consultation with external consultants, the Department of Finance, and the Joint Investment Advisory Committee. Plan sponsor oversight, procedures, and compliance functions are incorporated into Plan processes to achieve consistent controls and to mitigate operational risk.

### (i) Interest Rate Risk

Interest rate risk refers to the fact that the Plan's financial position will change with market interest rate changes as fixed income securities are sensitive to changes in nominal interest rates. Interest rate risk is inherent in the management of a pension plan due to prolonged timing differences between cash flows related to the Plan's assets and liabilities.

Assuming all other variables are held constant, a one percentage point change in nominal interest rates would change the fair value of the Plan by \$28.0 million (2021 - \$33.4 million).

	Value of Fixed Income <u>Securities</u> (millions)	Weighted Average <u>Duration</u> years	Percentage Point <u>Change</u> %	Impact on Fair Value of the <u>Master Trust</u> (millions)	Plan's Pro-rated <u>Share</u> %	Pro-rated Impact on Fair Value of the Plan (millions)

Notes to Financial Statements June 30, 2022

# 3. Investments and Derivatives (continued...)

### (ii) Price Risk

Price risk is the risk of fluctuation in market values of investments from influences specific to a particular investment or from influences on the market as a whole. Price risk is managed by the Plan through the use of diversified investment portfolios traded on various markets and across various industries. Assuming all other variables are held constant, a 10 percent change in market values of all public equities would change the fair value of the Plan by \$45.8 million (2021 - \$52.2 million).

		Impact on		Pro-rated
Value of		Fair Value	Plan's	Impact on
Public	Percentage	of the	Pro-rated	Fair Value
Equities	Change	Master Trust	Share	of the Plan
(millions)	%	(millions)	<del></del> %	(millions)
\$		\$		\$
1,609.7	10	160.9	28.4807	45.8

## (iii) Credit Risk

2022

Credit risk is the risk of loss in the event the counter party to a transaction fails to discharge an obligation and causes the other party to incur a loss. Credit risk associated with the Plan is periodically assessed in consultation with external consultants, the Department of Finance, and the Joint Investment Advisory Committee.

### **Fixed Income**

The Plan is exposed to credit risk from interest earning investments at June 30 as follows:

	2022 <u>(millions)</u> \$	2021 ( <u>millions)</u> \$
Federal government	213.8	117.4
Provincial government	377.5	458.5
Corporate	500.5	560.4
Government agencies	<u>28.8</u>	1.0
Total investment credit risk exposure	1,120.6	1,137.3
Plan's pro-rated share	<u>28.4807%</u>	<u>30.0725%</u>
Plan's investment credit risk exposure	319.2	342.0
Provincial government promissory notes	<u> 164.6</u>	<u> </u>
Plan's total credit risk exposure	<u>483.8</u>	<u>514.7</u>

All fixed income investments are considered to have low credit risk.

Notes to Financial Statements June 30, 2022

# 3. Investments and Derivatives (continued...)

## **Security Lending**

The Plan participates in a Securities Lending Program whereby it lends securities for a fee to approved borrowers. To alleviate the credit risk, borrowers must provide collateral with a value of 105 percent when the value of the securities lent is denominated in a different currency and 102 percent when denominated in the same currency. The market value of the collateral is monitored by the custodian at least daily to ensure that the security thresholds are maintained. In addition, security loans are allocated across various borrowers within the program and the Plan holds indemnification coverage, which mitigates the credit and market risk on the collateral.

The fair value of the security loans outstanding and collateral held is as follows:

	<u>2022</u> \$	<u>2021</u> \$
Total security loans outstanding Plan's pro-rated share Plan's security loans outstanding*	61,876,850 _28.4807% _17,622,951	16,274,064 _30.0725% _4,894,022
Total collateral held Plan's pro-rated share Plan's collateral held*	65,785,239 <u>28.4807%</u> <u>18,736,087</u>	17,154,510 <u>30.0725%</u> <u>5,158,794</u>

<sup>\*</sup>Rounded

### **Derivatives**

The Plan is exposed to credit related losses in the event of non performance by counter parties to derivative financial instruments. In order to mitigate this risk, the Plan deals only with highly rated counter parties, with whom International Swap and Derivative Association agreements have been executed, normally major financial institutions with a minimum credit standard of "A-/A3" rating, as supported by a recognized credit rating agency.

Credit risk represents the maximum amount that would be at risk as at the reporting date if the counter parties failed completely to perform under the contracts and if the right of offset proved to be non-enforceable. Credit risk exposure on derivative financial instruments is represented by the receivable replacement cost of contracts with counter parties, less any prepayment collateral or margin received as at the reporting date.

### (iv) Foreign Currency Risk

Foreign currency risk is the risk that the value of the future cash flow of the financial instrument will fluctuate because of changes in foreign exchange rates. Consequently, the Plan is exposed to the risk that the exchange rates of the various currencies may

Notes to Financial Statements June 30, 2022

# 3. Investments and Derivatives (continued...)

change in a manner that has an adverse effect on the value of the portion of the Plan's assets denominated in currencies other than the Canadian dollar. Foreign currency exposure arises from the holding of investments denominated in foreign currencies. A strategy of hedging a portion of the currency exposure is used to mitigate this risk.

The Plan's unhedged currency exposure from net investment assets is summarized as follows:

	2022	2021
	(millions)	(millions)
	\$	\$
Currency		
China	17.8	29.2
Euro Zone	24.8	27.6
United Kingdom	27.0	39.5
India	17.0	14.1
Malaysia	15.9	12.3
Japan	121.8	99.1
Sweden	8.9	14.8
Taiwan	27.2	33.4
United States	151.8	145.2
South Africa	0.9	12.1
Other	<u>40.1</u>	<u>43.4</u>
Total	453.2	470.7
Plan's pro-rated share	<u>28.4807%</u>	<u>30.0725%</u>
Plan's foreign currency exposure*	<u> </u>	<u> </u>

<sup>\*</sup>Rounded

After the effect of hedging, and without a change in all other variables, a 10 percent change in the Canadian dollar against all other currencies would change the fair value of the Plan by \$12.9 million (2021 - \$14.2 million).

# (v) Liquidity Risk

Liquidity risk is the risk of not meeting the cash obligations of the Plan in an efficient manner. Cash obligations are fulfilled from contributions to the Plan, cash income of the Plan, and disposition of Plan assets as required. Cash requirements of the Plan are reviewed on an ongoing basis to provide for the orderly availability of resources to meet the financial obligations of the Plan.

The Plan's cash management policy ensures that the quality and liquidity of the investment vehicles within the portfolios are consistent with the needs of the Plan.

Notes to Financial Statements June 30, 2022

# 4. Accrued Pension Obligation

### a) Actuarial Valuation

The present value of the accrued pension obligation was determined using the projected unit credit method pro-rated on service and management's best estimate, as at the valuation date, of future economic events and involves economic and non-economic assumptions. The non-economic assumptions include considerations such as mortality and retirement rates. The primary economic assumptions include the return on investment, discount, inflation, and salary escalation rates.

The most recent actuarial valuation for accounting purposes, prepared by the actuarial consulting firm LifeWorks (Canada) Ltd., disclosed a base benefit liability of \$873,074,900 as at April 1, 2022.

The actuarial valuation on April 1, 2022 was based on data as at September 1, 2019 and the actuarial liability was then extrapolated to April 1, 2022 based on current period benefit cost, benefit payments and interest and adjusted for changes in actuarial assumptions. An actuarial valuation of the Plan is performed annually as at April 1<sup>st</sup>.

The world is in the midst of the COVID-19 health pandemic. Although the pandemic could have a material impact on the financial status of the Plan, there is currently insufficient information to determine the extent of either the short-term impact or the long-term impact of this pandemic on the Plan. The results of the actuarial valuation as at April 1, 2022 only reflect the financial impact on plan assets and future return expectations up to that date, but do not reflect any further potential impacts on the Plan to occur after that date which may be caused by either economic and/or demographic outcomes different from the assumptions being used in the valuations. Such impacts will result in gains and losses to be revealed in future valuations.

The total accrued pension obligation as at April 1, 2022 consists of the following:

2022 \$

Base benefit liability 873,074,900
Contingent indexation liability 224,728,000
Total accrued pension obligation 1,097,802,900

<sup>1</sup>The contingent indexation liability is calculated based on total plan assets less the accrued pension obligation assuming no future contingent indexation. This calculation does not incorporate the potential impact of future events such as contributions, gains or losses on asset returns and new benefit accruals.

Notes to Financial Statements June 30, 2022

#### 4. Accrued Pension Obligation (continued...)

The assumptions used in the valuations performed as at April 1, are as follows:

	2022	2021
Inflation	2.00%	2.05%
Discount Rate	6.15%	5.40%
Expected Rate of Return of Plan Assets	6.15%	5.40%
Salary Escalation	Basic increase of 2.50% per annum + promotional scale	Basic increase of 2.55% per annum + promotional scale
Pre-Retirement Indexation	7.15% per annum for 2022, 2.50% per annum for the following 21 years, 0% thereafter	3.22% per annum for 2021, 2.55% per annum for the following 14 years, 0% thereafter
Post-Retirement Indexation (includes deferred pensioners)	0.61% per annum for 2022, 2.00% per annum for the following 13 years, 0% thereafter	2.00% per annum for 2021, 2.05% per annum for the following 6 years, 0% thereafter
Mortality	CPM2014Publ with future improvements based on CPM Scale B and size adjustments of 1.0 for males and 0.95 for females	CPM2014Publ with future improvements based on CPM Scale B and size adjustments of 1.0 for males and 0.95 for females
Termination	Tenure - based scale	Tenure - based scale
Retirement Age	Service and age - based scale	Service and age - based scale
Proportion Married	Males: 80% Females: 75%	Males: 80% Females: 75%
Age Difference for	Males 2 years older than	Males 2 years older than
Spouses	female spouses	female spouses

# b) Extrapolation

The accrued pension obligation at June 30, 2022 is estimated by the Plan, based on an extrapolation of the April 1, 2022 actuarial valuation. The total accrued pension obligation at June 30, 2022 consists of the following:

	<u> 2022</u>
	\$
Base benefit liability Contingent indexation liability	877,610,984 154,033,710
Total accrued pension obligation	1,031,644,694

Notes to Financial Statements June 30, 2022

## 4. Accrued Pension Obligation (continued...)

### c) Sensitivity of Changes in Major Assumptions

The Plan's future experience may differ from the assumptions used in the actuarial valuation and the extrapolation. Any differences between the actuarial assumptions and future experience could be significant and will emerge as experience gains or losses in future valuations which will affect the financial position of the Plan.

### 5. Notes Receivable

Prior to plan amendments in 2014, the Province was committed to make payments if the assets of the Plan were insufficient to provide for pension payments as they became due. In addition, a funding policy existed which required the Province to make special contributions when the Plan's funded level declined below 90 percent.

Special contributions made under this funding policy were as follows:

As a result of an unfunded liability at July 1, 2011, the Province of Prince Edward Island made a special contribution through the signing of a \$80,369,000 promissory note. The note, issued December 11, 2012, is held by the Plan and is receivable in ten equal annual instalments of \$8,036,900 beginning April 1, 2013. Interest on the note is accrued from April 1, 2012, at a rate of 2.9 percent per annum, and is receivable semi-annually on April 1 and October 1.

The following is a schedule of principal and interest payments as disclosed in the promissory note:

<b>Principal</b>	Payments

# **Interest Payments**

Date of Payment	Principal Payment	April 1	October 1
	\$	\$	\$
April 1, 2012	_	-	1,165,351
April 1, 2013	8,036,900	1,165,351	1,048,815
April 1, 2014	8,036,900	1,048,815	932,281
April 1, 2015	8,036,900	932,281	815,746
April 1, 2016	8,036,900	815,746	699,210
April 1, 2017	8,036,900	699,210	582,675
April 1, 2018	8,036,900	582,675	466,140
April 1, 2019	8,036,900	466,140	349,605
April 1, 2020	8,036,900	349,605	233,070
April 1, 2021	8,036,900	233,070	116,535
April 1, 2022	<u>8,036,900</u>	<u> 116,535</u>	
	<u>80,369,000</u>	6,409,428	<u>6,409,428</u>

Notes to Financial Statements June 30, 2022

# 5. Notes Receivable (continued...)

As part of the plan amendments in 2014, the Province's requirement to make payments if the assets of the Plan were insufficient to provide for pension payments as they became due was removed. The funding policy was rescinded and was replaced by the following government guarantee:

• Effective April 1, 2016, if the funded benefits ratio of the Plan falls below 100 percent (of base benefits) and, after reflecting the future contributions as described in Note 1(b), the Plan is still not projected to achieve a funded benefits ratio of at least 100 percent within five years, the Province is required to make an additional contribution equal to one fifth of the additional amount required to restore the funded benefits ratio to 100 percent within five years. This is reviewed on an annual basis and the contribution amount will be subject to change each year.

In addition, the Province committed to make a one-time transitional contribution (transitional government funding amount) to the Plan on or before December 31, 2014 such that, if that contribution had been made on January 1, 2014, the total assets of the Plan would have equalled:

- 122 percent of the total liabilities of the Plan excluding the liabilities for salary indexing and pension indexing for any year after 2013; plus
- 100 percent of the liabilities for salary indexing and pension indexing for 2014, 2015, and 2016.

The transitional government funding amount was contributed to the Plan by the Province of Prince Edward Island through the signing of a \$164,640,100 promissory note. The note, issued December 22, 2014, is held by the Plan and is receivable in seven equal annual instalments of \$23,520,014 beginning January 1, 2023. Interest on the note is accrued from January 1, 2014 at a rate of 4.14 percent per annum and is receivable semi-annually on January 1 and July 1.

Notes to Financial Statements June 30, 2022

## 5. Notes Receivable (continued...)

The following is a schedule of principal and interest payments as disclosed in the promissory note:

#### **Principal Payments Interest Payments** Date of Payment **Principal Payment** January 1 <u>July 1</u> January 1, 2014 3,408,050 January 1, 2015 3,408,050 3,408,050 January 1, 2016 3,408,050 3.408.050 January 1, 2017 3,408,050 3,408,050 January 1, 2018 3,408,050 3,408,050 January 1, 2019 3,408,050 3,408,050 January 1, 2020 3,408,050 3,408,050 January 1, 2021 3,408,050 3,408,050 January 1, 2022 3,408,050 3,408,050 January 1, 2023 23,520,014 3,408,050 2,921,186 January 1, 2024 23,520,014 2,921,186 2,434,321 January 1, 2025 23,520,014 2,434,321 1,947,457 January 1, 2026 23,520,014 1,947,457 1.460,593 January 1, 2027 23,520,014 1,460,593 973,729 January 1, 2028 23,520,014 973,729 486,865 January 1, 2029 23,520,016 486,865 40,896,601 164,640,100 40,896,601

Subsection 9(5) of the *Teachers' Pension Plan Act* stipulates that none of the above promissory notes may be cancelled or recalled by the Province prior to maturity unless the Province contributes an amount equal to or greater than the value of the outstanding promissory notes on the date of cancellation or recall. The notes are non-transferrable.

Notes to Financial Statements June 30, 2022

# 6. Benefits Paid

A breakdown of benefits paid by type is as follows:

	<u>2022</u> \$	<u>2021</u> \$
Benefits paid to retired members Benefits paid to survivors Benefits paid to members on disability Benefits paid to terminated members Benefits paid to deceased members	49,073,846 3,011,846 801,435 130,784 <u>59,771</u> 53,077,682	48,190,357 2,778,446 834,388 94,971 14,580 51,912,742

These benefits are presented in the Statement of Changes in Net Assets Available for Benefits as follows:

	<u>2022</u> \$	<u>2021</u> \$
Benefits paid Refunds Transfers to other plans	52,887,127 179,927 <u>10,628</u> <u>53,077,682</u>	51,803,191 84,970 <u>24,581</u> <u>51,912,742</u>

# 7. Operating Expenses

The Plan is charged with administrative and operating expenses. The following is a summary of these expenses.

		<u>2022</u> \$	<u>2021</u> \$
Administrative expenses	- pension section - investment section	549,711 58,0 <u>62</u>	486,634 54,796
	- investment section	607,773	541,430

Monitoring		79,776	71,026
Management		<u>4,569,934</u> <u>5,512,186</u>	3,961,969 5,078,343

<sup>\*</sup>Includes other actuarial services

Notes to Financial Statements June 30, 2022

# 8. Related Party Transactions

The Province of Prince Edward Island is the sponsor of the Plan. At the financial statement date, the Province has committed to the funding requirements as defined by the funding policy (Note 5). As a participating employer, the Province contributes regular bi-weekly employee, employer and eligible prior period service contributions. Employee and employer contributions receivable from the Province as at June 30, 2022 totalled \$2,037,754 (2021 - \$1,857,612). Total contributions funded by the Province for the fiscal year ended at June 30, 2022, were \$14,030,550 (2021 - \$13,772,021).

The Province provides pension and investment administration services to the Plan. A portion of the Province's costs relating to these services is recovered annually from the Plan. Costs recovered for the pension section totalled \$418,690 (2021 - \$425,110) and recoveries related to the investment section totalled \$58,062 (2021 - \$54,796).

Total promissory note and interest receivable from the Province at June 30, 2022, was \$168,048,150 (2021 - \$176,143,318). Total interest income earned on the promissory notes receivable from the Province for the fiscal year ended June 30, 2022, was \$6,990,903 (2021 - \$7,223,973).

# 9. Capital Management

The main objective of the Plan is to sustain a level of net assets in order to meet the pension obligations of the Plan. The Plan sponsor manages the contributions received and benefits paid as required by the *Teachers' Pension Plan Act*.

In an effort to utilize economies of scale, contributions for the Province's two registered pension plans are pooled and invested together in the Province's Master Trust. Each pension plan holds units of the Master Trust in proportion to the value of contributions made. The Province has developed a Statement of Investment Policies and Procedures (SIP&P) to provide the framework for how the Master Trust's assets are to be invested, monitored, and evaluated. Assets are managed by engaging knowledgeable, external investment managers who are charged with the responsibility of investing new and existing funds in accordance with the SIP&P. A Joint Investment Advisory Committee exists for the purpose of protecting the pension fund assets, monitoring asset mix, reviewing costs, reviewing investment returns, and assessing investment manager performance, as well as providing advice to the Minister of Finance who serves as Trustee for the Province's two registered pension plans.

# 10. Commitments

The Master Trust has entered into an arrangement with Global Infrastructure Partners (GIP). GIP is an independent infrastructure fund manager that invests in high quality infrastructure assets in the energy, transport, water, and waste sectors. The Master Trust has committed to invest \$35 (US) million in its GIP II Fund; \$31.8 (US) million has been invested as of the audit report date. The Master Trust has committed to invest \$75 (US) million in its GIP III Fund; \$66.7 (US) million has been invested as of the audit report date. The Master Trust has committed to invest \$60 (US) million in its GIP IV Fund; \$43.2 (US) million has been invested as of the audit report date.

Notes to Financial Statements June 30, 2022

### 10. Commitments (continued...)

The Master Trust has entered into an arrangement with TD Asset Management Inc. The Master Trust has committed to invest \$8 (CDN) million with a commitment period of 18 months in its TD Greystone Mortgage Fund; \$8 (CDN) million has been invested as of the audit report date. The commitment end date is August 25, 2023.

The Master Trust has entered into an arrangement with Baillie Gifford International LLC. The Master Trust has committed to invest \$70 (US) million in its Baillie Gifford Private Companies Fund II L.P.; \$15.6 (US) million has been invested as of the audit report date.

# 11. Impact of COVID-19

On March 11, 2020, the World Health Organization declared a global pandemic due to Coronavirus (COVID-19). The pandemic had significant impacts on the financial status of the Plan at year-end. Global financial markets have experienced significant volatility, and given the extent of the crisis, it is difficult to estimate the future financial impact on the Plan at this time

## 12. Comparative Figures

Certain prior period comparative figures have been restated to conform to the presentation format adopted in the current year.
